

what do you mean by 'pictorial logic'?

I mean, it's never enough.

there shouldn't be enough

it can't be enough

so what else?

when I

it's my turn to play the magic cube

when there's a stage

and my eyes orchestrate

I swirl around

the space

I'm not puppet-size

I'm not used to it

so this is your beginning

you get the option to bring in gravity.

some of that to do with
that distribution is not even balance
I orchestrate

because it's easier

I'm not thinking about that

anyway

我想回到还会折纸的时候

我决定了

我想回去。

light is three-dimensional in a painting

space starts here

the gestural swirl
but when light comes in

maybe more
more
more

about the world of painting

you jump into the world you need to organize

that view
